Metallo/*Metal*

I metalli della nostra collezione vengono verniciati a polvere così da rivestire le nostre superfici a scopo decorativo e protettivo. Lo spessore finale della verniciatura a polveri, risulta particolarmente elevata contribuendo ad una serie di rilevanti vantaggi sul prodotto verniciato: resistenza meccanica, resistenza agli agenti corrosivi, scarsa infiammabilità, precisione nell'applicazione. Le verniciature a polveri utilizzate sono totalmente atossiche e prive di solventi, per questo motivo la verniciatura a polveri è una lavorazione ECO- FRIENDLY, a bassissimo impatto ambientale. Disponibile la versione cromata dove il metallo o l'alluminio vengono rivestiti di cromo, conferendogli così durezza, resistenza chimica e resistenza all'ossidazione. / *The metals in our collection are powder coated in order to coat our surfaces for decorative and protective purposes.
