

ISIDORA

Design Antoy Filips

Isidora è la sedia di design che ricorda una poltroncina imbottita: elegante e intrigante, come il nome che porta. Risultato del progetto creativo del designer Antoy Filips, questa sedia di design si presenta con una leggera struttura in metallo, la seduta è dotata di un rivestimento non sfoderabile disponibile in pelle, ecopelle o tessuto. Definita da uno stile contemporaneo e raffinato, Isidora si colloca perfettamente in contesti moderni portando un tocco di leggerezza e comfort. Un complemento d'arredo importante come la sedia Isidora ha bisogno di accompagnare elementi altrettanto interessanti, come ad esempio l'affascinante e unico Tavolo Rotolo. Per una versione più elaborata, vi consigliamo la sedia Isidora Lounge.

Metallo/Metal

I metalli della nostra collezione vengono verniciati a polvere così da rivestire le nostre superfici a scopo decorativo e protettivo. Lo spessore finale della verniciatura a polveri, risulta particolarmente elevata contribuendo ad una serie di rilevanti vantaggi sul prodotto verniciato: resistenza meccanica, resistenza agli agenti corrosivi, scarsa infiammabilità, precisione nell'applicazione. Le verniciature a polveri utilizzate sono totalmente atossiche e prive di solventi, per questo motivo la verniciatura a polveri è una lavorazione ECO-FRIENDLY, a bassissimo impatto ambientale. Disponibile la versione cromata dove il metallo o l'alluminio vengono rivestiti di cromo, conferendogli così durezza, resistenza chimica e resistenza all'ossidazione. / *The metals in our collection are powder coated in order to coat our surfaces for decorative and protective purposes. The final thickness of the powder coating is particularly high contributing to a series of advantages for the painted product: mechanical resistance, resistance to corrosive agents, low flammability, precision in the application. The powder coatings used are non-toxic and solvent-free, for this reason powder coating is an ECO-FRIENDLY process, with a very low environmental impact. The chrome version is available where the metal or aluminum is coated with chrome, giving it hardness, chemical resistance and resistance to oxidation.*
